There is a **NEW FOOD CHAIN INFORMATION FORM** which needs **COMPLETING** and **SIGNING** with each batch of calves that could go for **PROCESSING**. This is a Declaration about whether any calf has been injected if so with what **DRUG** and when the withdrawal period finishes. Copies are available from the Market Office. This is particularly relevant to Holstein, Ayrshire, Jersey, Brown Swiss and Swedish Red Bulls, Holstein Free Martin Heifers and very small crossbreds

Orange Cards must be completed by all Vendors
EACH WEEK.

Calves that have been Pre-Movement tested need a copy of the Vets Certificate with each passport please.

Any calves found to have the **WRONG SEX** on the Passport will be sent home for the Vendor to amend with B.C.M.S.

Calves between seven and nine days old are subject to transport restrictions. Only buyers from within

forty miles can buy them. Ideally sell your calves at least ten days old. Please check your passports are correct.

Remember calves over 42 days from one or two year T.B. Status Farms will need a T.B. Test and then sold with a Vet Certificate which is valid for sixty days.

Ideally sell your calves under 40 days old.

This Friday 30th October the 42 day old calf will have been born on 19th September 2009

A bigger entry but trade was back. Meat cows were better sold on the day than had been expected from the talk of other local markets. A lot of poor cows forward brought the overall average down. **Please inform us of your entries for the next sale and so we can keep you up to date with the current price information and not flood the market.** Remember at this time of year it can mean a large supply and less demand. If we can keep the supply at a level and not flood the market we should have a demand for the meat. Keep in touch!
