More forward this week, which is good to see to keep the buyers coming. As we are almost into October they are taking the usual decrease in value. This may be also to do with the worrying times of the Euro and the stock exchange as 90% of the cows get exported. The best cows wouldn't be much less if any, but the quality was to say the least rather lacking which showed in the overall average. *Remember if traders are taking them from your farm are you getting the right price? We have at least 14 buyers with 20 accounts to buy cattle not just one that gives you their price.* Please contact our office with your entries so that we can sell them at a premium rather than having more than the buyers can cope with.
